

KEY

13. Given the formula:

This compound is classified as

- A) an aldehyde **B) an amide**
 C) an amine D) a ketone

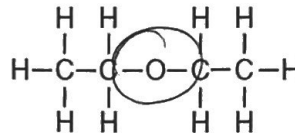

14. Which compound is classified as an ether?

- A) ~~CH₃CHO~~ **B) CH₃OCH₃**
 C) CH₃COCH₃ D) CH₃COOCH₃

ketone.

ester

15. Given the structural formula:

The compound represented by this formula can be classified as an

- A) organic acid **B) ether**
 C) ester D) aldehyde
