

# Introduction to Competitive Research

## Remote Learning Week 3 Assignment

### (4/6 – 4/10)

Hi Everyone,

Week 3 (4/6 – 4/10) has TWO assignments. Both are due by Friday 4/10/2020 @ 11:59 pm. All assignments must be properly titled and submitted to your INDIVIDIAL folder on Google Drive.

- RLA #3 (Research Reflection #2)
  - Research reflection #2. Please write at least one page (double spaced 12 pt Times New Roman) reflection covering the following points.
    - How are you? What have you been up to?
    - Have you been able to work on your project from home? If yes, what did you accomplish? If you weren't able to physically work on your actual experiment, what have you done to benefit your group over this time. Are there modifications you can make to your project so you can continue it from home?
    - Think about how many class periods would be needed to finish your project. What still needs to be done?
    - Do you think you will have enough time to finish? If finishing looks unlikely, brainstorm ideas on how you can conclude your project.
    - **Title your document: RLA#3 – Your Name**
  
- RLA #4 (Competitive Research Applications)
  - Instead of interviews, a paper application will be used instead. Below are the required things you must submit. Think of this like a job application.
    - Updated resume
    - Cover letter
      - Write a letter (do not exceed 1 page single spaced) to Mr. Woo and myself describing why you think you are a good fit for the Competitive Research class. (You can address us both on the same letter.)
      - Both parts can be part of the same document if that is easier.
    - **Title your document:**
      - **If you use separate documents for each section:**
        - **RLA#4a (Resume) – Your Name**
        - **RLA#4b (Cover Letter) – Your Name**
      - **If you use one document for both section:**
        - **RLA#4 (Competitive Research App) – Your Name**
